MHELING, W. VA., JULY 14, 1886.

A New Party.

A great schume for a new party is being hatched out in Washington. It is nothing more than uniting the farming and labor interests of the country for the election of men to Congress to attend to the interests of these classes and to counteract the effects of monopolies. A convention is to held at St. Paul on the 25th of August, where an organization will be effected.

The men who are at the head of this movement may hope for results that they will never obtain as a distinctly political organization. There are enough friends of the laboring and farming classes in the Republican party to accomplish what this new party desires if it gets the entire support of the iarmers and laborers. It is folly for a certain class to go off by itself and erect an independent party. It invariably falls. It either attracts strength enough from its strongest friend to defeat it while it does not raise to power itself, or clee it eventually passes into the control of unscrupulous politicians who make a living off the credulity of their followers without giving them any benefits in return.

A Mugwump Discavery.

That eminent Mugwump paper, the New York Nation, has a breezy editorial on the assured safety of the Espublic. It states that a number of people until recently believed that the Democratic party would plunge the country into ruin.

states that a number of people until re-cently believed that the Democratic party would plunge the country into ruin.

would plunge the country into ruin.

"Nothing short of a year's peaceful administration of the Government by the party which they so dreaded could convince these hundreds of thousands of men that the country is safe. This test has been applied, and a host of people are drawing long breaths of relief."

Moreover, "this confidence largely grows out of the discovery that the Nation no longer has a negro problem to settle."

This last assertion must certainly have been written in a playful mood. It will

been written in a playful mood. It will be news to a great many people to be told that the "negro problem" has been settled. It is settled in a way in the South that prevents the negro voter from casting his ballot, and if he has the the Nation is satisfied with such a settlement the Republican party is not. The negro's right to vote unintimidated by force of arms must be seemed. thement the Republican party is not. The negro's right to vote unintimidated by force of arms must be secured, and that is why the Republican party is going to live to accomplish it.

that is why the Republican party is going to live to accomplish it.

Regging the Question.

The first indication that the action of the Republican editors of Ohio, on the Payne bribery case, has hurt the boodle gang, comes from a Columbus dispatch to the New York Sun, which says:

The real object of the Republican editors, who met here the other day for the ostensible purpose of denouncing bribery said to have been committed in the election of Henry B. Payne to the Senate, has leaked out through the large mouth of Field Marshal Halatead. It was not for effect on the action of the Senate on Monday, but to furnish a campaign document for the Republican party in the November elections. The revolutionary and rascally work in the Legislature last winter, and the bitter and unstatesmanlike course of Governor Foraker, has put the Republican party of Ohio on the defensive. To go before the people applogizing for the acts of the party they knew would be a losing game from the start, and Republican papers and speakers will try to galvanize into life the weak and foolish lies about Senator Payne.

This is begging the question. The Re-Senator Payne.

This is begging the question. The Republican administration of Ohio has nothing to defend. It unseated the fraud Senators and Representatives of Hamilton county after a desperate fight, and investi-

fice he found an empty Treasury, plundermoney had to be borrowed to pay the name charges on the Government, Will For the National Encampment of the G. A. R., at San Francisco.

For the National Encampment of the usual charges on the Government. Will the Republicans of Ohio have to defend this matter? When the election rolls around the Democracy will soon discover which side is conducting a defensive cambalant of the Baltimore & Ohio Railroad.

RANDOLPH COUNTY. Sly Editor who Manipulated the Re of a Democratic Meeting.

BEVERLY, W. VA., July 12 .- Since the Democratic mass meeting here, June 28, politics have been booming, and our quiet old town and county have had a shaking up politically. There is only one paper published in the county, and it is

paper published in the county, and it is impossible for it to deal fairly with Democrats, let alone Republicaus.

To show the uniairness and lack of intelligence of the editor, I would refer to the report of the mass meeting, published in the issue of July 1st. The editor was appointed Assistant Secretary, and wrote up the proceedings of the meeting and showed the manuscript to the Secretary and the proof sheet to the Chairman, which was endorsed by them, as it was then written and printed. But when the paper was published there had been an addition of two clauses to the report, which was not known by the Chairman nor Secretary, and which they claim were incorrect.

In the issue of July 1 they state their

est on these claims, and it is shown that he had the money to pay them, and he receives the interest instead of the county, as the law directs.

Has not our State Attorney received costs in a number of cases from the defendants who were convicted or who confessed in digments, in misdemeaner cases, and has not the County Court made allowsness in some of these cases? And has he not received the jary costs?

These are only a few of the irregularities in our county affairs. Our County Court is run in the interest of a certain family and relationship, and it remains to be seen how long these things will be permitted.

It is high time for the people of Randolph, both Democrats and Republicans to rise en masse and suppress the usurpao rise en masse and suppress the usurpaon of authority and looseness in handling their public moneys.
